ABOUT DENSO

An OE Heritage

DENSO is one of the world's largest automotive component suppliers with over \$40.4 billion in annual sales. We supply every major auto manufacturer in the world, providing them with the quality and innovation they need to remain on the leading edge of automotive technology. In addition to our automotive customers, we also supply components to virtually all OE manufacturers worldwide. For decades we have helped all of our customers to become giants in their industries.

Unsurpassed Quality

At DENSO we know that one of the major keys to success for our company and our customers is an unwavering commitment to quality. We strive for, and achieve, zero defects for parts manufactured in the millions in DENSO facilities that are ISO9000 and ISO14000 certified. This dedication to quality is clearly recognized by the industry as DENSO has received such prestigious awards as the Deming Award for Quality, the J.D. Power and Associates Chairman's Award and numerous supplier awards for quality from companies like Toyota, Lexus, General Motors and Chrysler.

Bringing It All To The Aftermarket

In the 1980s, DENSO became the first to mass-produce the platinum spark plug and offer it in the aftermarket. A decade later we introduced the world's most advanced spark plug, Iridium Power®, which revolutionized the concept of the aftermarket performance plug. By the late 1990s, the world watched with great interest as DENSO unveiled a line of OE-standard premium replacement components under the First Time Fit® brand. Today, the First Time Fit line of products includes A/C compressors, cabin air filters, condensers, evaporators, radiators, receiver driers, expansion devices, starters, alternators, oxygen sensors, fuel pumps, oil and air filters, ignition wire sets, tire pressure monitoring system sensors, engine management sensors and wiper blades.

DENSO is one of the world's largest automotive component suppliers with over \$40.4 billion in annual sales.

Better By Design

As you can see, we've spent decades perfecting our craft — a claim few automotive component manufacturers can make. Clearly the DENSO commitment to quality, innovation, and advanced technology is the reason our automotive and heavy-duty components truly are better by design.

Nous fournissons tous les grands fabricants automobiles au monde, en mettant à leur disposition les innovations et la qualité dont ils ont besoin pour conserver une longueur d'avance en matière de technologie automobile. Depuis des décennies, nous avons aidé tous nos clients à devenir des géants dans leurs secteurs d'activités.

Qualité inégalée

Chez DENSO, nous savons que l'une des clés majeures de la réussite de notre entreprise et de nos clients est l'engagement sans faille pour la qualité. Nous recherchons et nous obtenons l'objectif « zéro défaut » pour les millions de pièces fabriquées dans les usines DENSO, qui sont certifiées aux normes TS16949, ISO9000 et ISO14000. Ce dévouement pour la qualité est clairement reconnu par l'industrie et se traduit par les prestigieux prix attribués à DENSO tels que le prix Deming Award pour la qualité, le prix J.D. Power and Associates Chairman's Award et plusieurs prix des clients pour la qualité, attribués par des entreprises telles que Toyota, Lexus, General Motors et Chrysler.

La meilleure qualité sur le marché des pièces de rechange

Dans les années 1980, DENSO devint le premier à produire en masse la bougie d'allumage en platine et à l'offrir au marché des pièces de rechange. Une décennie plus tard, nous avons introduit la bougie d'allumage la plus perfectionnée au monde, Iridium Power®, qui a révolutionné le concept de bougie de performance sur le marché des pièces de rechange. Vers la fin des années 1990, le monde a observé avec un grand intérêt l'innovation par DENSO, par le biais d'une gamme de pièces de remplacement haut de gamme conformes aux normes OE sous la marque First Time Fit®. De nos jours, la gamme de produits First Time Fit comprend des compresseurs de climatisation, des filtres à air d'habitacle, des condenseurs, des évaporateurs, des radiateurs, des réservoirs déshydrateurs, des dispositifs d'expansion, des démarreurs, des alternateurs, des capteurs d'oxygène, des pompes à carburant, des filtres à huile et à air, des jeux de câble d'allumage, capteur du système de surveillance de la pression des pneus, capteurs de gestion du moteur et des balais d'essuie-glace.

[DENSO est l'un des plus grands fournisseurs de pièces automobiles au monde, avec plus de 40,4 milliards de dollars de ventes annuelles.]

Supérieurs de par leur conception

Comme vous le constatez, au cours des décennies, nous avons perfectionné notre art, ce que peu de fabricants de pièces automobiles peuvent affirmer. L'engagement de DENSO pour la qualité, l'innovation et la technologie avancée, est clairement la raison pour laquelle nos pièces automobiles et nos pièces pour machineries lourdes sont véritablement supérieures de par leur conception.

Calidad insuperable

En DENSO sabemos que una de las claves principales del éxito para nuestra compañía y nuestros clientes es el compromiso inquebrantable con la calidad. Nos esforzamos y logramos que no haya defectos en las partes fabricadas de a millones en las instalaciones de DENSO certificadas bajo las normas TS16949, ISO9000 e ISO14000. Todo en el mercado de posventa

En la década de 1980, DENSO se convirtió en el primero en producir en serie la bujía de encendido de platino y ofrecerla en el mercado de posventa. Una década más tarde, presentamos la bujía de encendido más avanzada del mundo, la Iridium Power® la cual revolucionó el concepto de bujía de rendimiento en el mercado de posventa. A fines de la década de 1990, el mundo observó con un gran interés cómo DENSO anunciaba una línea de componentes de reemplazo estándar de equipos originales de calidad superior bajo la marca First Time Fit®. Actualmente, la línea de productos First Time Fit incluye: compresores de AA, filtros de aire de cabina, condensadores, evaporadores, radiadores, receptores secadores, dispositivos de expansión, arrancadores, alternadores, sensores de oxígeno, bombas de combustible, filtros de aceite y de aire, juegos de cables de encendido, sensor del sistema de control de presión de los neumáticos, sensores de administración del motor y escobillas limpiaparabrisas.

[DENSO es uno de los proveedores de componentes de la industria automotriz más grandes a nivel mundial con más de \$40.4 mil millones de ventas anuales.]

Mejor por su diseño

Como puede observar, nos tomó décadas perfeccionar nuestro trabajo: una afirmación que pocos fabricantes de componentes de automóviles pueden realizar. Sin duda, el compromiso de DENSO con la calidad, la innovación y la tecnología avanzada es la razón por la que nuestros componentes de automóviles y de servicio pesado son realmente mejores por su diseño.
